## PRESENTED BY:

*Jonathan Angel – AI Strategist, Head  
of Cyber-Security & VP of IT*

*Brian Wu – Chief Technology Officer  
& AI Solutions Architect*

**You're brilliant. You work hard. You care deeply.**  
But let's face it—doing everything alone is draining.  
And it's slowing your growth.

**Ready for a smarter path?**  
Let AI lift the weight off your shoulders, so you can  
lead with ease and power.

**Tired of AI hype that feels confusing or cold?**  
This isn't another tech-heavy training.  
It's a 90-minute shortcut to real, tangible business  
results.

**This is for women ready to stop grinding & start  
growing.**  
Because now—it's time for ease, freedom, & growth  
—on your terms.

## WHY ATTEND?

Unlike most, Jonathan and Brian don't just talk about AI—they build with it. As an AI Strategist and Solutions Architect, they'll show you exactly how to use today's top tools, backed by real tech know-how. You'll leave confident, clear, and ready to grow without stress.

## Here's what you'll walk away with:

- ✓ Reclaim 5–10 hours a week by automating the time-consuming tasks that slow you down—like drafting quick, on-brand email replies in your natural tone, generating scroll-stopping content, conducting deep market research to uncover who's genuinely interested in your services in just minutes, and scheduling without the back-and-forth.
- ✓ Boost accuracy and impact by learning how to create engineering prompts that reflect your unique communication style—so your AI-generated responses sound just like you and deliver maximum accuracy and results.
- ✓ Protect your brilliance by understanding how to secure your data, creativity, and confidential ideas across various AI platforms—so you can innovate with confidence.
- ✓ Turn creativity into conversions by generating compelling images, irresistible offers, engaging social posts, and customized outreach that attract and convert dream clients.
- ✓ Build your own branded chatbot that automatically responds to customer questions in your voice—delivering speed, style, and success while you stay focused on higher-value tasks.
- ✓ And much more...
- ✓ Go Beyond Basic ChatGPT. Join this exclusive session led by two seasoned AI experts with deep technical backgrounds. Gain rare, practical insights grounded in real-world applications—knowledge that most business owners rarely access. This is your opportunity to move past surface-level AI advice and into strategies that deliver real impact.
